11th December 2020

Seasonal Flu Vaccination 2020

Please read this letter carefully

The Government have now extended the seasonal flu vaccine to 50-64 year olds. We would therefore like to invite you to attend the flu clinic as below:-

Venue: Curborough Community Centre, Reynolds Close, Lichfield WS13 7NY
Date: Thursday 17th December 2020
Time: Stated in text message

This year we have a fixed appointment slots so that we can control the number of people in the venue and ensure that it does not exceed the maximum number to allow everyone to be socially distant from each other. **Please come at your allotted time stated in your text message. Please do not telephone the surgery to cancel or re-arrange your appointment.** It is important that you attend because we only have a limited number of vaccines, and we cannot say if the vaccines will be available for you after this clinic.

If you have symptoms of COVID-19, or you are self-isolating because it has been confirmed that you have COVID-19 or you have been in contact with someone who is suspected or confirmed as having COVID-19, you **MUST NOT** attend the flu clinic because of the risk that you will infect other people present.

When you are at the flu clinic please maintain a 2 metre distance between yourself and others, except for people from your household and/or your bubble. Please only approach a member of staff when asked to do so.

To adhere to Government requirements there will be a strict one way system throughout the venue. Please follow the signs that will be in place.

You must wear a face covering while in the venue, unless you have a condition that prevents you from doing so.

Please use the hand sanitiser provided in the venue.

Please wear clothing that gives easy to access your upper arm so that you are in the venue for as little time as possible.

Yours sincerely

The Langton Medical Group
